Object of the contract :			
To hire a Company for the repair and eventual replacement of 2 toilets located in the Embassy Building and in the waiting área room of the Consular Section.			
Term of the contract: Not applicable.			

Technical Specifications:

Row one

ITEM	Description	Unit of Measure	Quantity
1	To hire a Company for the repair and eventual replacement of 2 toilets located in the Embassy Building and in the waiting room of the Consular Section toilets.	toilets	2

DETAIL OF THE PROVISION:

Quality: Very good

Tolerance: s/n

Sample:

1) The toilet located on the ground floor of the Embassy building: Water gushes out when it is flushed, causing its contents to spill onto the floor.

Diagnosis and work to be carried out by the company to adapt and repair the toilet: The pipe does not have ventilation and therefore it would be necessary to create a ventilation for it in the basement. The 15-foot pipe need to be cleaned.

2) The toilet located in the waiting room of the Consular Section: It presents problems when flushing it, causing its contents to spill on the wooden floor and carpet. On the other hand, it is constantly clogged.

Diagnosis and work to be carried out by the company for adaptation and repair of the toilet: Increase in the size of the toilet since it is too small for the drain. Later clean the 25 foot pipe since it must be clogged.
