UNOFFICIAL TRANSLATION II - TECHNICAL SPECIFICATIONS

PURPOSE OF THIS TENDER

The purpose is to contract cleaning services in the Chancery and Sarmiento Buildings belonging to the Embassy of the Argentine Republic in the United States of America, located at 1600 New Hampshire Ave. NW, Washington DC, in accordance with the technical specifications and other documents that govern this Tender.

This Tender includes the provision of labor and everything necessary for these services to be completed appropriately, in accordance with best practices, technical specifications and the documentation that governs this invitation to bid. If the technical specifications or Tender documents do not state all the work necessary to achieve the result or the elements required to carry them out, the Contractor must carry them out and/or provide them, without the right to demand additional compensation.

GENERAL CONSIDERATIONS

This service will have duration of EIGHT (8) months, counted from the day after the receipt of the Purchase Order.

The Co-contractor may not subcontract, assign or transfer in any way the Contract and/or the provision of the cleaning services, unless this is authorized by the Client.

1. PRECAUTIONS

The cleaning tasks will be carried out in a careful and detailed manner, in accordance with the "best practices" procedures in use. Care must be taken at all times.

Appropriate elements must be used for the different types of cleaning to be done, and the specific products most appropriate used for carrying out each task.

The diplomatic mission may require the Contracting Party to carry out laboratory tests at their own expense, in order to verify the performance of the cleaning products to be used.

Regarding the chemical products to be used to clean stairs, patios, access, walls and any other surface covered with calcareous marble, etc., they must first be approved by the official designated by the Embassy to carry out the inspection before they are used.

Once approved, these products must not leave active residues that could harm the components, either superficially or on the substrates. Therefore, they must be removed immediately so that they do not damage these components.

2. CLEANING TEAM

The Co-contracting Party must submit the list of the employees assigned to these services, ensuring their suitability in the shifts indicated for each case, and with the appropriate equipment.

The employees and equipment must be what is required to comply with the objectives of the service established in these Specifications.

These lists must be updated any time there are changes to the original list of staff, and every time other employees join the team.

3. UNIFORMS

All the workers must use the same uniform, using adequate work clothes (overalls or similar clothes, with shoes for cleaning or maintenance, shirts, pants and shoes for carrying out cleaning tasks). Likewise, they must be provided with all the necessary and adequate protection items to carry out their tasks, for example gloves, rubber boots, etc.

The uniforms must be perfectly clean and without tears or patches, on every day the workers are providing the cleaning services.

EMBASSY OF ARGENTINA IN
THE UNITED STATES OF AMERICA

4. MACHINERY AND EQUIPMENT

4.1 GENERAL CHARACTERISTICS

The Co-contracting Party must have all the elements required, in adequate operating and safety conditions, for the tasks covered by the contract, as well as the products necessary to carry them out.

The machines and/or equipment to be used must be supplied with all the necessary accessories for the different types of work, and they must be in perfect working order; for example: vacuum cleaners with sweeping brushes, flexible pipes, nozzles for cleaning upholstery, carpets, corners or corners; polishers with bristle brushes and cloths.

The Contracting Party must not use the outlets where fax machines, photocopiers, computers and any other electronic equipment are connected, or those that in spite of not have equipment connected to them, are assigned for that purpose. The outlets to be used for connecting the machines of the co-contractor must remain in their same original connection conditions when the work is finished.

The offer must indicate the number and type of machines that will be used for the different cleaning tasks.

5. SUPPLIES FOR DISPENSERS

The Contracting Party will place the materials and supplies to be provided by the Embassy in the corresponding dispensers, in all bathrooms and kitchens, and place these products (such as toilet paper, paper towels, soaps, deodorant/air freshening elements) in all the bathrooms, on the different floors, and/or sectors in which the services are carried out.

6. STORAGE AND CHANGING PLACES
